Temporary Workpiece Fixing

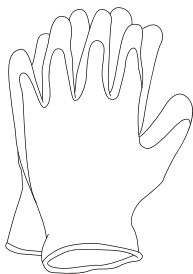

Power Cord

■ Personal Protective Equipment

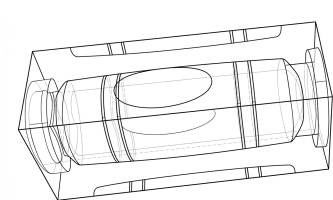

(A)

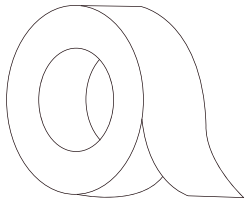

(B)

- A) The accessory kit includes gloves and goggles for personal protection.
- B) Wearing gloves while contacting the machine may cause your hands to be pulled into the machine.

■ General Accessories

(A)

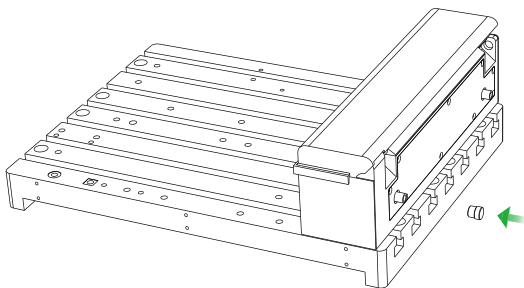

(B)

A) Spirit Level: After equipment installation or relocation, calibrate the worktable level to ensure machining accuracy.

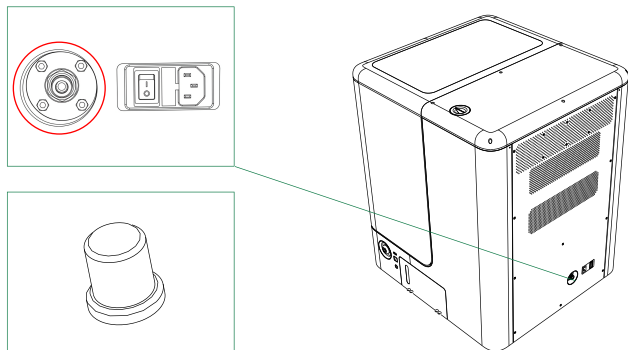

B) Double-Sided Tape: For securing workpiece blanks. This is a temporary method; for normal machining, use fixtures, vises, or other tools in conjunction.

■ Waterproof and Dustproof

Aviation Connector Cap for Tool Magazin
Tool Magazine Plug Dust and Waterproof Protection

■ T-Shaped Rubber Plug

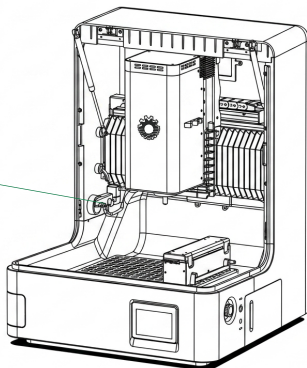

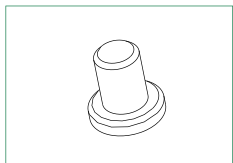

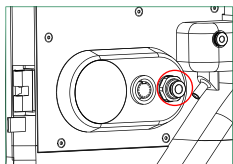

(A)

For dust protection of pneumatic ports. Available in two sizes:

A) T8.3 for the intake air source cap,

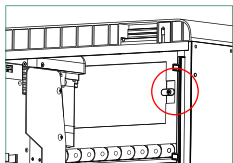

■ T-Shaped Rubber Plug

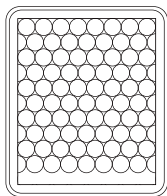

(B)

B) T6.3 for the internal exhaust air source cap.

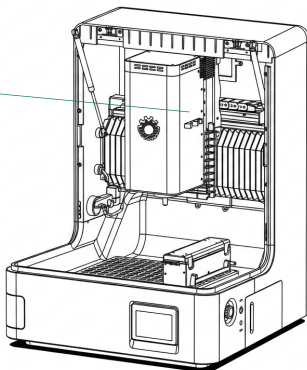

■ Filter Replacement

(1)

(2)

- 1) Move the spindle until the filter cover screws are exposed.
- 2) Remove the cover to replace the filter element.
